With an open panoramic view to the sea and the mountains, this elegant designer villa will be constructed. The location in the "Monte Olimpo" residential park is first class and only a few minutes from the beach. It offers one of Javea's most modern infrastructures with bike paths, sewer connections, street lighting, sidewalks and fiber optic internet. The architecture is unique and plays with curved overhangs and double floors. A villa designed for the customer who is looking for something special combined with elegance. On the main living level there is a large open living area with an American kitchen and a bedroom with bathroom en-suite. A guest toilet and a utility room complete the ground floor. Upstairs there are three bedrooms with bathrooms en-suite, one of them as a master bedroom with an open designer bathroom. The outdoor facilities impress with their generosity; wide terraces, the spectacular overflow pool and the cozy BBQ area ensure a luxury life under the Spanish sun.
